<http://www.outwear.com.tr>

Production Site

Tol Köyü Mevkii

Ankara Bala Kırşehir Yolu, 24. Km.,

Bala – Ankara – TÜRKİYE

Tel: (+90) 883 86 86

Faks: (+90) 883 87 67

2. Composition/Information of Ingredients

General Composition

Calcium sulphate dehydrates encased within glass-mat. Additionally nominal amounts of additives such as; starch, foaming agent, dispersants, wax and glass fiber.

3. Hazards Identification

Sawing and sanding of OUTWEAR will generate gypsum dust, which may irritate skin eyes and the respiratory system.

4. First Aid Measures

Inhalation

Remove person to fresh air.

Skin Contact

Using clean water rinse and then wash using soap & water

Eye Contact

Wash with clean water and seek medical advice if irritation occurs.

Ingestion

Wash out mouth and drink plenty of clean water.

Please Note

Should any symptoms obtain medical assistance.

5. Fire Fighting Measures

OUTWEAR has limited combustibility (reaction to fire class is A1-s1, d0); All standard fire extinguishers are suitable, using normal fire fighting procedures. For reaction to fire

6. Accidental Release Measures

Prevent these products from contaminating drains, watercourses, ground or soil

7. Handling and Storage

When manually handling, keep the short edges straight up and the long edges parallel to the floor with one person for each side. Pallets should be moved using a forklift truck or hydraulic trolley, care should be taken to ensure that the machinery is safely capable such movements and that the operator is trained and competent. OUTWEAR should be stored in dry flat conditions, if supported on bearers these should be enough quantity (roughly 50 cm. span). OUTWEAR is not a suitable product to be used as a platform deck, it will not support body weight and therefore it is important that installers use an independent support mechanism.

8. Exposure Controls / Personal Protection

Occupational Exposure Limits

TLV: (as total dust containing no asbestos and <1 % crystalline silica) 10 mg/m₃ as TWA; (ACGIH 2004).

MAK: (as respirable fraction of the aerosol, without fibers) 6 mg/m₃; (DFG 2004).

Respiratory

Area should have adequate ventilation and dust extraction, if not a half face mask to EN 149 Class FFP1S should be used.

Eye

Safety goggles to EN 166 2A5 are recommended when dust is likely to occur.

Skin

Wear overalls and suitable clothing to avoid repeated skin contact.

Hands

To limit the effect wear protective gloves, a barrier cream can also be applied.
